See Superfluous Hair Roots Come Right Out (An Entirely New Process)

Pomfret Man Heir?

So far as is known Edward F. Searles, the multi-millionarie, who died in Methuen, Mass., Friday night, leaving some \$15,000,000 to \$25,000,000—a few more or less—left no relatives in this section. His nearest relatives are Miss Edith Ripplefield of Boston, Mass, and a nephew, Victor Searles of Providence. There are a number of the family name in eastern Connecticut, including Charles Edwin Searles of Pomfret, who has dropped the second "e". Mr. Searles has served in the lower house and was in the Senate of 1910 and has been secretary of state. Where the Searles millions will go now is a question. New, different, better than all depilatory and electrical treatments, is the marvelous phelactine process. It's the one thing that actually removes the roots as well as the hair on the surface. It does this very quickly, leaving the skin perfectly smooth and hairless.

Get a stick of prepared phelactine from your druggist today, follow the easy instructions, and with your own eyes watch the hair-roots come out! You'll be astonished and delighted. Phelactine is entirely edorless, non-irritating, and so harmless you could eat it without any ill effect.

DYSPEPTIC DIET NO LONGER NECESSARY

The old plan of prescribing strict det for dyspeptics and stomach sufferers is no longer popular among progressive medical men, partly because of its measurements of the discovery that nearly all stomach trouble is due to excessive acidity. The organs of digestion are themselves all right but acids in the stomach britate and inflame the delicate stomach lining and cause sourness and premature food fermentation. The logical treatment, therefore, is to get rid of the acid, when natural painless digestion will follow.

For this purpose a teaspoonful or four tablets of Bisurated Magnesia in a little water neutralizes the acid, stons the farmentation of the food, dispels the gas, and thus permits the stomach to proceed with its work without bindrance. Owing to its prempt and certain action. Bisurated Magnesia, which is obtainable from any druggists, in either tablet or powder form, should always be used in preference.

A difficulty which Governor Cox may find is that a "dirt farmer who has tilled the soil for himself and made a successful business of farming" afford to take a cabinet job.—St.

SUMMER-TIME

Your Nerves Demand It, Your Blood Needs It, Say Physicians.

Needs It, Say Physicians.

There's not enough phosphorus in modern foods to benefit nearly one-half of the men and women of America, scientists declare.

To overcome this lack of an eloment of your body that is necessary to your health, your happiness and even your besith, your happiness and even your success in life, weak, anaemic, nervous, run-down people are advised to take Bitro-Phosphaie as dispensed by Lee & Osgood and all leading drug stores in the original package.

Speaking of people who are easily fatigued, who hack ambition, nerve and are ofttimes thin, weak and sadly hacking in firm, healthy flesh, Joseph D. Harrigan, formerly visiting specialist, North Eastern Dispensary, N. Y., says:

"Patients who were apparently physical wrecks, who foolishly thought they naeded only a blood tonic to enrich the blood, have come for treatment trembling find shaking, their nerve force almost exhaustering of Bitro-Phosphate has produced seemingly magical results."

People who feel the heat of summer, tire easily, and often become irritable and depressed, will find Bitro-Phosphate, and inexpensive and helpful friend.

Druggists report a wonderful increase in the demand from men and women-who are anxious to renew old-time ambitim and who are making an hosest effort, to become vigorous and keen-minded with a power of endurance that denotes almost perfect health.

They ask for Eliva-Phosphate became they know they need an inexpensive organic phosphate.
